

PRAYAG JARIWALA

JAVA FULL STACK DEVELOPER

701-203-3391
prayag.j@cvinboxs.com
TX

SUMMARY

- Java Full Stack Developer with Around 3 years of experience developing Java based Web apps with problem solving skillsets and striving for the Best Client satisfaction.
- Well-Versed in the Software Development Life Cycle (SDLC), Agile and Waterfall.
- Ability to developing application in Single Page using various JavaScript frameworks such as Node JS and Express JS.
- Capable in python programming with IDEs like Jupyter Notebook and IntelliJ IDEA.
- Knowledge of developing the business and enterprise applications using Java, J2EE based technologies and maintaining web-based applications using with J2EE, JSP Servlets, JavaBeans, JDBC and Hibernate.
- Proficiency in different Java framework like Spring MVC, Spring Boot and JSF.
- Proven knowledge of programming and User Interface development using React.JS, HTML, CSS, Bootstrap, JavaScript, jQuery, XML, JSON and AJAX.
- Capable in build tools like Ant, Maven, Gradle for building and deploying applications to different environments.
- Good working knowledge of database designing with MySQL and MongoDB.
- Ability to use Version Control Tools like Git and GitHub.

EXPERIENCE

Berkshire Hathaway, TX | Sep 2020 – Current

Java Full Stack Developer

- Using an Agile and SDLC techniques to provide reliable, working software early and often.
- Implementing Model view controller (MVC) architecture using spring framework.
- Develop GUI using Java Script, HTML, CSS, and jQuery in ongoing projects.
- Develop major websites and services by including MongoDB as backend software.
- Primarily focus on the spring components such as Dispatcher Servlets, Controllers, Model and View Objects, View Resolver.
- Develop code for web designing JavaScript using frameworks like Node.js, Express.JS and React.js.
- Coding using core Java, Servlets and JSP using Jupyter Notebook and IntelliJ IDEA IDE.
- Involve in raising questions for business, getting answers from them, bug fixing, and tracking is done by Maven.
- Installing and configuring Git and communicating with the repositories in GitHub.

BrainByte Infotech, India | Sep 2017 - July 2019

Java Full Stack Developer

- Worked in Waterfall environment allowing teams to deliver project piece-by-piece and make rapid adjustments as needed.
- Developed server-side application to interact with database using Spring Boot and Hibernate.
- Worked on enhancements using JSP, Struts, database stored procedures and wrote SQL queries.
- Used XML for the data transfer to the different layers and HTML and JavaScript for the front-end development.
- Troubleshooted issues for J2EE applications on Spring framework running on Apache Tomcat.
- Implemented various screens for the front end using React.js and used various predefined components from NPM (Node Package Manager) and redux library.
- Involved in designing and developed presentation layer using JSF, Ajax, and jQuery and third-party libraries.
- Developed data access classes using JDBC and SQL queries.
- Used log4j for logging and Git for version control.
- Involved in Unit Testing using JUnit and Integration of Use Cases.

EDUCATION

Master of Science in Computer Science
University of Texas, Arlington, TX

Bachelors of Engineering Computer Engineering
Gujarat Technological University, India

SKILLS

Methodologies:

SDLC, Agile, Waterfall

Languages:

Java, SQL

Frameworks:

Express.js, Node.js

Java Technologies:

JDBC, JavaBeans, Restful, Servlets, JSP

J2EE Frameworks:

Spring MVC, Spring Boot, Hibernate, JSF, REST API

IDE Tools:

Jupyter Notebook, IntelliJ IDEA

Server:

Apache Tomcat

Web Technologies:

React.JS, HTML, CSS, Bootstrap, JavaScript, jQuery, XML, JSON, AJAX,

Databases:

MySQL, MongoDB

Version Control and Other Tools:

Git, GitHub, Maven, MS Office

Operating Systems:

Windows, Linux
