Summary

Certified Scrum Master with a keen ability to understand and build complex systems. I focus relentlessly on removing impediments from teams and delivering customer-centric products and features. Led teams of 5-10 people across technology, business, and design departments.

Experience

Scrum Master (remote)

Tripnologies inc.

January 2017 – Present

- Exhibits the behaviors of a Lean-Agile Leader with a Lean-Agile Mindset. Helps the team embrace Agile and Scrum Values, adopt and apply Agile Principles, and implement Scrum practices.
- Support the teams' rules of Scrum, Built-In Quality practices from Extreme Programming (XP), Work in Process (WIP) limits from Kanban, and any other process rules the team has agreed.
- Facilitates the team's progress toward team goals.
- Leads team efforts in relentless improvement.
- Facilitates team events, including the Daily Stand-up, Sprint Planning, Sprint Review, and Sprint Retrospective, ensures they are productive and kept within the timebox.
- Supports the Product Owner in their efforts to manage the backlog and guide the team while facilitating a healthy team dynamic with respect to priorities and scope.
- Facilitates the removal of impediments.
- Builds a high-performing team.

QA Tester (remote)

Tripnologies inc.

February 2015 – January 2017

- Be responsible for quality deliverables & documents to meet program requirements and schedule.
- Communicate with customers on any aspect of product quality.
- Advocate as the voice of the Product Owner demanding the highest quality expectations from the organization with lean, cost-effective strategies that meet the organization's needs.
- Work with other functions to implement and maintain programs and processes to ensure high-quality products
- Oversee the maintenance and improvements
- Create, revise, review, and approve quality-related documents, including but not limited to procedures, memoranda, protocols, batch records, and reports
- Responsible for the enforcement of quality standards and process controls
