Elias Kamel

Professional Profile

I'm highly motivated and extremely passionate about developing, I'm a fast learner and highly adaptable, and confident that I'll build my skill set quickly once I start working full-time. I'm up to speed on the latest programming trends, and I pride myself on bringing a fresh perspective. I love learning new Programming languages, and excited to pick up new ones in the future. I have experience in creating and developing websites and Mobile Applications on various Platforms.
